Anandh Sandhya (1st May)

At Acworth Leprosy Hospital, Mumbai. A wonderful evening was celebrated with the residents of this leprosy home, spreading devotion, joy, peace and love.

In the session a Mitra explained to the resident patients, "The pain and the suffering that you feel staying in this leprosy home is not very different from others out there. Most important is to understand the root cause of

this pain and suffering which is caused because we have lost our connection and bond with the divine. 'Anandh sandhya' is one such event where you can drown yourselves in the devotion of the bhajans and re-establish that bond". Mitra Ajinkya and Mitra Rahul accompanied by few musicians started singing bhajans. The bhajans were sung with deep devotion. Some of the patients were also given an opportunity to sing. After the bhajans YGPT conducted AUM chanting, (Sampurna AUM) was taught to the patients, followed by aarti and distribution of fruits to the patients. The event ended with offering gratitude to the leprosy home for allowing us to share this wonderful opportunity and experience.

Maitri Bodh (18th May)

The Sunday of 18th May was unlike any other for Central Delhi. Patel Nagar, reverberated with immense energy. It was on this warm summer afternoon that Maitri Bodh was held at Mitra Anand's residence.

The session welcomed about 30 people of all ages from near and far. Maitreyi Monica conducted the session, and within a short time, all participants flowed with natural ease. The process of *Sambodh Dhyam* transcended everyone to a different realm. The energies were very strong and everyone was immersed completely in an ocean of absolute peace. It was with much reluctance that all slowly emerged from the world of serenity. Two of the devotees felt Dada - very strongly, sitting right in front, near the Shrimurti.

If the dhyam had been a liberation from all things mundane, what came next was even beyond this. Lavanyaji took over the session with some stories and soul stirring bhajans. Everyone was completely mesmerised by the heavenly notes, and swayed as one - under the sublime feeling of bhakti.

The beautiful session finally came to a conclusion with the aarti. Boundless Love and Joy and Peace coursed through all. Everyone departed, but none empty-handed – for Dada's Grace has filled us all to the brim.

“Bodh .. An Awakening to Self-Realization”

Level 1 (on 10th/11th May and 17th/18th May '14)

The month of May witnessed 2 beautiful weekends with very special and chosen seekers across various cities at our sacred ShantiKshetra Premgiri Ashram.

Dadashreeji's and Babaji's supreme benediction showered as the first ever Bodh was conducted by direct disciples of Dadashreeji. Participants were left speechless as our beloved Dadashreeji graced the occasion with his marvelous presence during the Blessing session (known as Shakti Pravah). Bhakti flowed with tears and love as seekers prayed for grace in their life during the 'Prathana Session'.

The experiences were mesmerizing as the participants flowed and connected with natural ease during all sessions. While some were in turmoil and pain, experiencing being lifted like a child under parental protection by Dadashreeji, others experienced being re-connected with the Divine Source. Many followers of other spiritual organizations and masters, were touched to the core as they experienced this never before life transforming experience and teachings received during the Bodh. Many were inspired to be chosen as Mitras and Maitreys and many have already joined our Mission as sevaks for upcoming events.

As one seeker shared, “Never before I have experienced peace and bliss, that I experienced on 10th/11th May. Therefore I went back to the ashram on the next weekend, with my whole family to receive this divine experience. And this time it was totally life transforming for my entire family. It's unbelievable how just a weekend can change someone's life . Thank You Dadashreeji for your supreme blessings and grace on us.”

Koti Koti Pranaam Dadashreeji.

May all be blessed with your Supreme Omnipresence!

Maitri sessions in Europe

Multiple Maitri Sessions were conducted at various cities, thanks to the continuous selfless service of Mitra Silvano and Mitra Kaivalya

05/05/14 (Milano) - First Maitri Session in Spanish, as a devotee full of love, in Milan agreed to gather her friends who speak and understand Spanish better than Italian.

06/05/14 (Biella) – With a group of fourteen people in a hospital meditation room.

09/05/14 (Genova); 15/05/14 (Rimini); 21/05/14 (Milano); 22/05/14 (Roma);

23/05/14 (Montecatini); 28/05/14 (Faenza).

Each session saw the grace and blessings of Dadashreeji bringing in a change...a transformation, as this wave is now set to spread to so many in Europe, who have been waiting to seek true love and peace in their lives, for so long. Many had amazing experiences in their own ways- a lady reported she felt like someone removed from her a “shell”, a “weight” and after she was feeling more light and so much better. Many of them reported experiences during the session from the SriMurti and some even afterwards.

Message by our beloved Dadashreeji

on 1st June 2014 at ShantiKshetra Premgiri Ashram, Karjat

Humanity in the modern age has been focusing on developments in various fields leading to greater heights and achievements in the material world. The modern age has seen the various ages of reasoning, industrialisation, science, technology, electronics and computers amongst others. But, now the time has arrived for the advent of the "Age of The Divine" – something which we have mentioned to you off and on. The "Age of The Divine" would continue over the next few thousand years. The initial time for its establishment on earth would happen over the next 200 years. This paradigm shift in Global Consciousness is going to be a phenomenon truly worth witnessing. Many people would realize and identify with this shift in global consciousness in the due course of time.

The next 10 years are vital for us, as much depends on the raised consciousness of humanity. The year 2025 is crucial – as it would decide the planet's fate. Following this, the year 2032 would initiate greater changes for the globe and witness the phenomenon that all of you have prayed for. Humanity has been given a huge opportunity to "make it" this last time. No one can dissociate themselves from it.

The current times are filled with challenges, which we as citizens of the country and beings of the planet are going to face. The major shift is still waiting to happen. Very soon all devotees, parivaar members, sevaks and all others associated with us, would initiate a three months process of prayers, to help humanity pass through this crucial time. Remember that the purpose is only to elevate the consciousness level of humanity. Our work over the last two years has already started showing good results.

Humanity would be offered opportunities that would help society to grow positively, prosper and lead to inner transformation. Denial of these positive opportunities would make one walk towards darkness. You, as devotees need to understand and realize that your positive and selfless acts would help in stopping the current trend of our society's downfall and instead make it rise to Divinity. Grace will reach your doorstep to help you; but it is upto you to accept or refuse the gift of Grace. The world may or may not notice your contributions. We are not here for the recognition but continue our acts of selfless contribution – thereby leading to that transformation.

Our message to the world is

- 1) Get transformed for your betterment, for your inner peace.
- 2) Associate and set a bond with the divine in any form of your choice.
- 3) Serve selflessly.
- 4) Share goodness with all.
- 5) Radiate love and peace in all directions.

I am here to answer your queries, search, sadhana, tapas and hard work you have done since long to gain the absolute truth of divine existence. It is not a coincidence that we met now – It was predestined. I am totally confident that each one of you present here, as well as all my devotees living around the world has the strength to transform others. We will work as ONE to bring about that transformation.

Love and Blessings!

- Dadashreeji
